

SERVING THE COMMUNITY

Welcome to UnityUplift, where passion meets the purpose and community empowerment takes centre stage.

PROBLEM STATEMENT:

Create a platform that connects volunteers with social impact projects to maximize community empowerment.

Team : Anderung
Members : Sharvari Soparkar
Ketan Polawar

VISION

“Creating a platform that addresses the registration of diverse volunteers, onboarding NGOs and social communities, facilitating donations with protections, implementing proof of work or badges, tracking skill sets, ensuring data security and privacy, and allowing the common man to connect and discover ongoing activities involves a comprehensive approach. “

MISSION

Empower, Connect, Transform for Global Impact

“We strive to empower individuals from all walks of life, fostering a community where diverse skills and passions converge to create positive change. Our mission is to provide a platform that transcends professional boundaries, enabling a global network of volunteers and organizations to collaborate seamlessly for the betterment of society.”

A vibrant online web application that bridges the gap between volunteers and social projects, spanning a spectrum of professions and passions.

KEY INDICATOR	• Volunteer Registration	• Organization Information	• Donations and Protections	• Data Security and Privacy
		• Skill Set Inventory	• Common Man Connection	• Proof of Work, Badges, and Rewards

PROPOSED SOLUTION

1 . VOLUNTEER REGISTRATION:

- User Types:
Clearly distinguish between non-professional and professional volunteers during the registration process.
- Registration Form:
Collect standard information (name, email, password, location).
Include additional fields for skills, interests, and availability.
- Verification:
Implement a verification process to ensure the authenticity of volunteer profiles.
- User Profiles:

Allow users to create detailed profiles showcasing their skills, interests, and a brief bio.

2. ORGANIZATION INFORMATION:

- Gather detailed information during onboarding, including mission, location, and contact details.
- Project Details:
Enable organizations to post information about ongoing projects, goals, duration, and required skills.
- Verification:
Verify the legitimacy of NGOs through a vetting process.
- Dashboard:
 - Provide a user-friendly dashboard for organizations to manage and track their projects.

3. DONATIONS AND PROTECTIONS:

- **Integration with Payment Gateways:**
Facilitate secure donation processing by integrating with reputable payment gateways.
- **Campaigns:**
Allow NGOs and community organizations to create fundraising campaigns for specific projects.
- **Donor Recognition:**
Implement a system to recognize and appreciate donors publicly or through badges.
- **Transparent Reporting:**
Provide donors with transparent reports on how their contributions are utilized.
- **Data Protections:**
Implement robust data protection measures to secure donor information and financial transactions.

4. PROOF OF WORK, BADGES, AND REWARDS:

- **Task Tracking System:**
Create a system for volunteers and organizations to track tasks and hours of service:

Allow volunteers to upload proof of work, such as project reports or photos, for verification.
- **Badges and Rewards:**
Develop a badge system to reward volunteers for their contributions.
Allow NGOs to issue digital rewards or certificates to acknowledge outstanding volunteer work.
- **Leaderboards:**
Implement leaderboards to showcase top volunteers and organizations based on contributions.

5. SKILL SET:

- Skills Inventory:

Allow volunteers to input and update their skills, creating a searchable skills inventory.

- Skill Matching:

Utilize an algorithm to match volunteers with projects based on their skills and interests.

6. COMMON MAN CONNECTION:

- User-Friendly Interface:

Design an intuitive and user-friendly interface that caters to users of all backgrounds and technical expertise.

- Search and Discovery:

Implement search and discovery features to help users find ongoing activities and projects.

- Community Forums:

Create community forums where users can connect, share ideas, and discover new initiatives.

- Mobile Accessibility:

Ensure the platform is accessible via mobile devices for ease of use by the common man

7. DATA SECURITY AND PRIVACY:

- Encryption:

Implement end-to-end encryption for sensitive data.

- Compliance:

Ensure compliance with data protection regulations and standards.

- Privacy Controls:

Provide users with privacy controls to manage the visibility of their information.

- Regular Audits:

Conduct regular security audits to identify and address potential vulnerabilities.

- User Consent:

Clearly communicate data usage policies during the registration process and obtain user consent.
